

Objectifs

- Écrire une application React permettant aux utilisateurs et utilisatrices de consulter et écouter les podcasts disponibles à travers l'API.

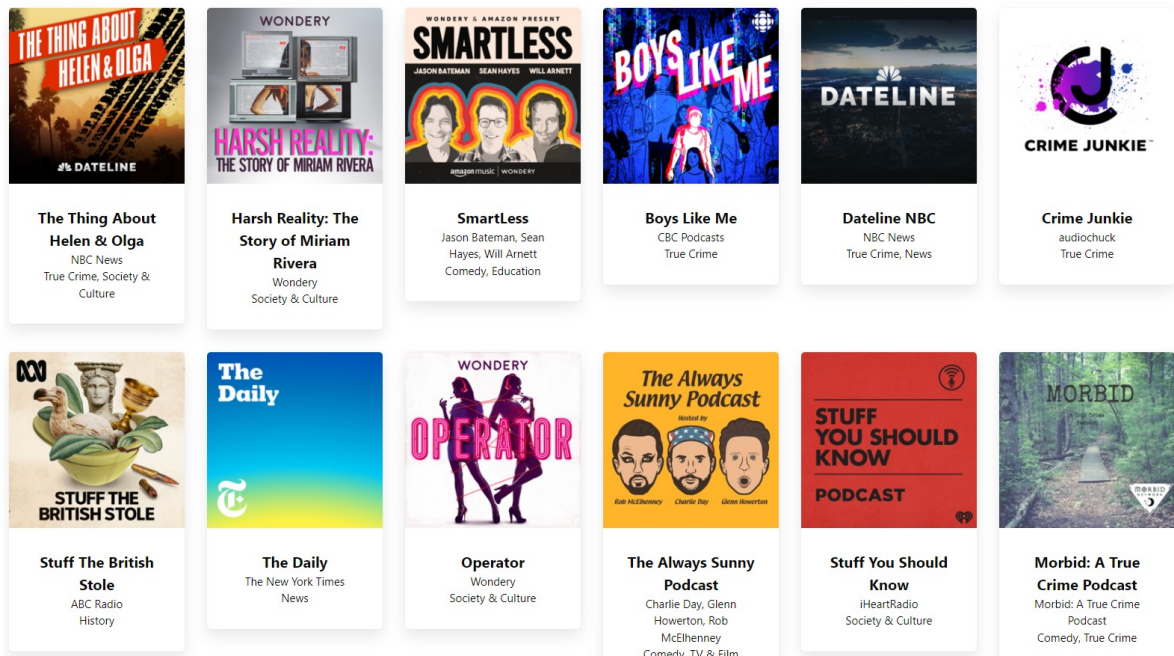

API

- <https://podcastapi5d6.herokuapp.com/>
- La documentation est sur le site.

Page d'accueil

- Affichez les 50 podcasts les plus populaires, tels que retournés par la méthode [/podcasts/top](#) de l'api.
- Un clic sur un podcast affiche la page InfosPodcast.

TOP 50 PODCASTS

Search

- La page de recherche exploite la méthode </podcasts/search/{terms}> de l'api.
- Les données retournées ont le même format qu'avec la méthode </podcasts/top>.
- Un clic sur un podcast affiche la page InfosPodcast.

InfosPodcast

- Affiche les informations détaillées d'un podcast (nom, artiste, description, genres et les épisodes).

Name: Hunting Warhead

Artist: CBC Podcasts

Genres: True Crime, Podcasts

Description: How do you take down a criminal network that's hidden in the shadows? How do you rescue child abuse victims who could be anywhere in the world? Hunting Warhead follows the journalists and police on a global mission to expose the darkest corners of the internet. What they discover shocks them. Host Daemon Fairless tracks down the investigators, survivors and criminals themselves. A co-production of CBC Podcasts and the Norwegian newspaper VG.

Trailer - Hunting Warhead

A new investigative series from CBC Podcasts and the Norwegian newspaper VG, Hunting Warhead follows an international team of police officers as they attempt to track down the people behind a massive child-abuse site on the dark web — and the morally complicated lengths authorities will go to do so. Coming November 2019.
